EDUCATION

Bachelor Of Technology (Computers Science)
Vidya Vikas Pratishthan Institute of Engineering And Technology Solapur

08/2019 - 09/2022   *Solapur , Maharashtra*
First Class with Distinction
- 8.78 Cgpa

Diploma /12th (Computer Engineering)
VVP Engineering College Solapur

08/2016 - 07/2019   *Solapur ,Maharashtra*
First Class With Distinction
- 76%

SSC(10th)
Sonamata Kanya Vidyalaya ,Solapur

06/2015 - 07/2016   *Solapur, Maharashtra*
First Class
- 61%

TECHNICAL PROJECT

Cyber Bullying Detection
- The implementation of the Cyberbullying Detection System on Twitter is based on PHP and HTML with the MySQL and Twitter API. This system will detect cyberbullying related tweets that have matching keywords from the database.
- The system needs dataset. This paper is to show the implementation of software that will detect bullied tweets, posts, etc. A machine learning model is proposed to detect and prevent bullying on Twitter.

Restaurants management Project in java
- In my Java-based Restaurant Management Project, I developed a console application for effective restaurant and order management. This project encompasses all CRUD operations, enabling easy editing, updating, and deleting functions. I followed the MVC architecture and utilized Spring Boot for the view part, ensuring a streamlined user interface. Additionally, I integrated MySQL as the backend, facilitating efficient server-side request handling and data management.

Employee management system in Angular
- In my project, I created an Employee Management System App using Spring Boot and Angular 8. I gained valuable experience in developing a CRUD Web Application, integrating Angular 8 as the front-end and Spring Boot 2 as the backend, to efficiently manage employee data through RESTful APIs.

TECHNICAL SKILLS

`Java` `C/C++` `Spring Boot` `MySQL`
`Basics Of Python` `JPA with Hibernate` `HTML/CSS`
`PHP` `Front End Developement`

TRAININGS

She Arise 2.O (Centum Foundation)
Trained on Java Full-Stuck Development with Soft Skills Like Presentation Skill ,Communication Skill etc. and applied for certification as part of robust training conducted by Capgemini Technologies Pvt Ltd

Soft Tech
Trained of PHP web Development , worked on single and dynamic page websites .Got the relavent skills like PHP framework , javascript, MySQL,HTML,CSS,Bootstrap etc.

Pentagone Space
Trained on Java Full-Stuck Development ,Got relavent Technical skills like core Java, MySQL,Javascript etc . Upskilled with coding skills with Java Programming Language .

CERTIFICATES

Software Testing/Quality Engineering(Capgemini India.)
Skills : Automation Testing , SDET , Cloud Testing , Performance Testing

Java Full Stack Developement (Capgemini India.) (12/2022)
*Centum Foundation - She Arise 2.O Training And Placement Program **Skills:** Spring Boot · Angular CLI · Java Full Stack Developement · Hibernate*

Web Development (Code Infotech)
***Skills:** Django · Python (Programming Language)*

Python (Cognitive Class)
***Skills:** Python (Programming Language)*

Web Development Internship (CODSOFT) (11/2023 - Present)
Skills :HTML/CSS,Javascript,Bootstrap

SOFT SKILLS

Presentation Skill

Communication Skill

Team Work

Adaptable

Punctual
